

Monday, July 20, 2009

The title of this chapter was supposed to be “Prayers for the Ascension,” but there is new information to relay about alien agendas and the technology that they use to track humans [particularly those who pray]. Through trial and error, I have discovered workarounds that I will need to describe in a future chapter.

This was one of the most difficult chapters to write because the information about alien trespassing is overwhelming. The technology that has been developed by advanced races is horrifying. What’s even more disturbing is the fact that it’s been allowed to continue for eons. I can understand the need for free will and the need for a non-interference principle but there’s a point where these do not justify the control and domination of races who are less developed.

PRAYERS AS WEAPONS

As you’ll read in this chapter, I have asked God to re-vise the Law of Non-Interference and add a “threshold clause” that protects those who may be exploited by advanced beings. I’m also questioning the existing Ascension Prayer program in its present form—due to the fact that advanced beings have been able to use aspects of pro-

gram to track those who Pray. This chapter will describe what’s happened and readers will be able to understand the need to say short protection Prayers that are required as a shield from those who have figured out how to use the Prayer schedule and other aspects of the Program—as weapon enhancements.

WESTPHALIAN SOVEREIGNTY

In Chapter 12, I wrote about Westphalian sovereignty—a principle that arose out of treaties signed in 1648 in Europe—after the Thirty Years War and Eighty Years War. Westphalian sovereignty involves three key principles:

Sovereignty and the right of political self determination

Equality between states

Non-intervention of one state in the internal affairs of another state

I also wrote that from the 20th century onward, supranational institutions on Earth have been slowly unraveling the principle of Westphalian sovereignty saying that it is “outdated.” After spending weeks dealing with “zaps” due to my Prayers and thinking about the ethics involved in Non-intervention, I realized that 17th Century Earth humans were more highly developed than the alien races who have

been trespassing on Earth for the last 25 million years. Not only have they trespassed, they have also kept themselves hidden—something that makes them equivalent to snipers.

When Americans declared their independence, claimed sovereignty and rejected allegiance to the British monarchy, colonists knew that George III and Great Britain were on the other side of the Atlantic ocean. Relatively few people ever *saw* the King, but they knew he *existed*. In contrast, Earth’s

During the Revolutionary War period, the colonists were very aware of the British army (the King’s “regulars”). Paul Revere is famous in American history as a messenger who took a “midnight ride” to warn colonists just before the battles of Lexington and Concord. His famous “Midnight Ride” occurred on the night of April 18/April 19, 1775 and the warning he helped deliver [with two other riders] allowed the American militia to repel the British troops at Concord, Massachusetts.

alien controllers are invisible—and have been for millions of years. Just as the British used their naval superiority to capture coastal cities during the Revolutionary War, so too have the aliens [Sirians and other races] used advanced technology to prevent humans from communicating with God. To learn more, I asked:

“Are You God? [3 variations].

“Yes.”

“Are aliens using aspects of the Ascension Program to identify humans who Pray?”

“Yes.”

“Are twelve compatible numbers, addresses, times for starting Prayers—all designed to confirm a person’s identity?”

“Yes.”

“Does the interference increase the more a person Prays?”

“Yes.”

“Have simultaneous Prayers and the need to repeat the same words been used against those who Pray?”

“Yes.”

“Is the solution to abandon simultaneous Prayer?”

“No.”

“Is the solution to develop a ‘defense Prayer’ to recite a few minutes before a 15 minute Sun event?”

“Yes.”

“Does this extra safeguard imply that the Ascension Prayer program needs to

be revised to prevent dark races from exploiting those who Pray?”

“Yes.”

“Will the present system with added ‘safety’ workarounds work for this Ascension?”

“Yes.”

“Are the God action words that I’ve been given the only words that may be used?”

“No.”

“Do You respond to any verb?”

“Yes.”

“Do you respond to informal language?”

“Yes.”

Digital image of Earth taken on September 9, 1997 by the Laboratory of Atmospheres at NASA’s Goddard Space Center in Greenbelt, Maryland [generated using three Earth-observing satellites]. The color scheme used shows heavy vegetation as green and sparse vegetation as yellow. The height and depths of valleys have been exaggerated by 50 times so a vertical relief is visible. The Moon is an artistic addition that is twice its relative size. Source: <http://visibleearth.nasa.gov>.

“Can additional Prayers be composed and recited at each Sun event to enhance protection and address individual needs?”

“Yes.”

Additional concepts about an “extra safeguard” prayer are presented in this chapter. Instructions for composing additional Prayers and samples—are included in the next chapter.

IRRITATION THAT LED TO QUESTIONS

There have been several times when I have felt a great deal of anger over what I’ve learned. P.M.H Atwater says tolerance is an Indigo’s positive signature and that anger is their negative signature. On days that my body aches from zapping and I feel like I’ve been pushed to the limit, I’ve screamed at God and asked Him why this situation was allowed to deteriorate. I understand the concepts of non-intervention and free will but it seems that there should be some ‘override’ when races are exploited. To understand this issue, I asked:

“Are You God? [3 variations].

“Yes.”

“Are You intervening to help humans?”

“Yes.”

“Did You wait too long?”

“Yes.”

“Has the delay been due to the Law of Non-Interference?”

“Yes.”

“Is the Law, in its present form, outdated?”

“Yes.”

UPDATING THE LAW OF INTERVENTION

There have been many times in my life that I have defended someone who was either been bullied or exploited—and who could not speak for themselves. Yesterday, I screamed at a lawn chemical technician as he was about to spray toxic chemicals in front of my apartment building. I told him he was about to kill invisible soil life—and most likely harm birds and other wildlife. I happened to be in a rage over alien trespassers and also disgusted at the what I assume are millions of STO beings who ignore planets that are exploited and/or dominated because it’s “not their concern.” If we do not protect as much of life as we can—from any entity that harms—then we are not supporting The Law of One.

If Earth has had trespassers for twenty-five million years, there must be two groups of races who know what is taking place—the trespassers and a second category of non-trespassers who know there’s trespassing taking place. Twenty-five million years is a long time for trespassing and ignoring trespassers. It seems as though the Law of Non-intervention has become a con-

venient device for the non-trespassers to ignore what takes place on Earth. Questions helped me determine if I’m correct:

“Can the Law be changed to include a threshold for manipulation—beyond which intervention becomes a necessity?”

“Yes.”

“Are there races who would disagree with such a change?”

“Yes.”

In a Star Trek Next Generation episode called Symbiosis that aired April 18, 1988, the Star Trek writers created what has become a famous quote about non-interference. I believe that the writers’ script is flawed. They failed to explain that there are circumstances that absolutely require intervention.

Captain Picard told Doctor Beverly Crusher, “Beverly, the Prime Directive is not just a set of rules; it is a philosophy... and a very correct one. History has proven again and again that whenever mankind interferes with a less developed civilization, no matter how well intentioned that interference may be, the results are invariably disastrous.”

“Do these races use Non-intervention as an excuse to ignore what has happened to humans?”

“Yes.”

In the *Ra Material*, Ra said that 150 people Ascended during the last Ascension cycle. In Session 22 on February 10, 1981, the following exchanges were recorded::

Questioner: *How many people populated the Earth totally at that time; that is, were incarnate in the physical at any one time?*

Ra: *I am Ra. I am assuming that you intend to query regarding the number of incarnate mind/body/spirit complexes at the end of the second major cycle, this number being approximately 345,000 entities.*

Questioner: *Approximately how many were harvestable out of that total number at the end of the cycle?*

Ra: *I am Ra. There were approximately 150 entities harvestable.*

To check if the numbers recorded in the *Ra Material* are correct, I asked

“Was the total Earth population 345,000 at the end of the last cycle?”

“Yes.”

“Is it true that only 150 people Ascended?”

“Yes.”

“Would Ra have used the word ‘harvestable’?”

“No.”

“Are there more details to the story?”

“Yes.”

A THRESHOLD CLAUSE

Adding what I call a “threshold clause” to the Law of Non-Intervention would accomplish two important goals. It would protect groups who are manipulated by more advanced races, and also help identify those who use Non-intervention as an excuse to turn their back on those who are manipulated. To verify if I am correct, I asked:

“Are You God? [3 variations].

“Yes.”

“Would a threshold clause in the Law of Non-Intervention help identify those who are loyal to The Law of One?”

“Yes.”

“Has there ever been a threshold clause in the Law of Non-Intervention?”

“No.”

“Have the alien races that have been trespassing on Earth for twenty-five million years far exceeded any reasonable threshold?”

“Yes.”

“Would all of the races who have ignored Earth be considered disloyal to The Law of One once a threshold clause is added?”

“Yes.”

“Was the addition of a threshold clause included in my requests this morning at Sun Rise?”

“Yes.”

“Have You added a threshold clause to the Law of Non-Intervention?”

“Yes.”

“Have You intervened?”

“Yes.”

“Is threshold clause intervention considered an emergency?”

“Yes.”

“Will You need to rely on anyone to do the intervening?”

“No.”

“Does intervention still require requests from 12% of the population?”

“No.”

“Will one request be sufficient?”

“Yes.”

“Should the one request be spread out over a total of twelve Sun Rise and Sun Down Sun events?”

“Yes.”

“Is this what Akanaton taught the Egyptians?”

“Yes.”

“Has history incorrectly interpreted this as Sun worship?”

“Yes.”

“Are twelve consecutive Prayers more powerful than one?”

“Yes.”

“Does one Prayer have 1/12th of the power of the total?”

“Yes.”

SIMULTANEOUS VS. INDIVIDUAL NEEDS

Given that alien ‘trackers’ are using technology to scan the words in my Prayers, I have been re-composing unique Prayers for the balance of the fifteen minutes after I recite the Prayer that I presented in Chapter 6.

Using a thesaurus, I re-compose with as many different words as I can—so the Prayers cannot be tracked. Samples and instructions will be provided in the next chapter. To determine if this is a correct strategy, I asked:

“Are You God? [3 variations].

“Yes.”

“Should readers continue to say the Prayer that I presented in Chapter 6?”

“Yes.”

“Does this Prayer have flaws?”

“Yes.”

History has inaccurately recorded that Akanaton taught the Egyptians to worship the Sun. The fact that twelve consecutive Prayers said at Sun events are more powerful than one relates to energy available at these fifteen minute intervals #2508530.

“Does it still work?”

“Yes.”

“Is there extra power when a simultaneous is recited?”

“Yes.”

CONSOLIDATING ENERGY OF TWELVE

I have discovered that Prayers said across twelve Sun events leaves a person vulnerable to alien attack. There is some strength noticeable at the 11th Sun event but the full strength of a Prayer does not occur until it is recited for the 12th time. As a result, I proposed a “consolidate” request or something similar using a similar verb—that asks God build the power of 12 consecutive Prayers into one—due to alien attacks. To check to see if He would be willing to accept a “consolidate” request, I asked:

Twelve-compatible numbers help the controllers track people who say Prayers for the Ascension. The answer is not to give up the “twelve” but to compose an extra Protection Prayer that will be described in Chapter 14 #7745631.

“Due to the almost impossible situation of avoiding alien attacks over a sequence of twelve requests, can a “consolidate” request be composed that ramps up the power of a Prayer?”

“Yes.”

“Will this make a Prayer’s power equivalent to one that is recited over 12 Sun events?”

“Yes.”

“Should versions of “extra” Prayers continue to be recited over twelve [or more] Sun events?”

“Yes.”

Even though God accepted a “consolidate” request, there are many reasons for continuing Prayers at both Sun events. The alien “problem” still exists and their ability to saturate a home or other environment with booby traps is considerable. For example, they have been creating synthetic life forms that are both visible and invisible for millions of years. These life forms can behave like robots and deliver painful bursts of energy or implants that are timed to go off during activities such as work on the computer or even preparation of Prayers. To verify that I am correct about this, I asked:

“Are You God? [3 variations].

“Yes.”

“Does the complexity of booby trap/ambushes require as many ‘extra steps’ as possible to create a ‘God shield?’”

“Yes.”

My attacks have been so bad that I have been sleeping in a six-sided Mezuzah that I created in the vestibule of my apartment. I also still wear God’s name taped in six places [six directions] on my body.

Yesterday, I taped God’s name on the bottom of my left foot for the ‘down’ position and forgot that there’s an added benefit to switching this to the right foot at night [after Sun Down]. Although my Prayers have helped me to start sleeping in my bed again, I woke up feeling weak and realized that I had forgotten to place God’s name on the sole of my *right* foot. An easy solution is to tape God’s name on the sole of both feet until bathing.

Although it’s annoying, I also continue to wear a latex rubber glove on the left hand during the day and on the right hand at night. Rubber sole shoes and slippers are also a protection. Rubber is for insulating energy fields. It’s hard to explain, but there is a noticeable difference in energy when the gloves are not worn.

PRAYER SAFEGUARDS

I have often wondered if other people will need to create a six-sided Mezuzah, wear God’s name on their bodies or wear latex rubber gloves to protect the energy of their dimensional bodies

To check on these questions, I asked:

“Are You God? [3 variations].

“Yes.”

“Will the Prayer safeguards that I’ve developed:

- Consolidated Prayers
- Safeguard Prayer before a Sun Event start
- Additional safety Prayers said on-the-fly during the balance of time in a Sun event

provide enough protection—making a six-sided Mezuzah unnecessary?”

“No.”

“Will the level of protection be different for different people?”

“Yes.”

“Will some need a six-sided Mezuzah [particularly as one begins to say Ascension Prayers]?”

“Yes.”

I papered the vestibule of my apartment with 8 1/2 X 11 sheets of paper that have 9 columns of God’s name in 24 point type. I used masking tape to hang each sheet on the room’s five surfaces including the door to my apartment and a closet door. I also used strapping tape to attach four-column strips to two area rugs and created a shade with the same paper for a light fixture. It was a difficult job. When I finished, I thought how great it would be if a wallpaper manufacturer would make “God” wallpaper.

A six-sided Mezuzah made with sheets of paper containing God’s name provided relief from energy attacks and a safe place to sleep for almost a month.

“Do you recommend wearing Your name in six positions on the body [six directions] for added protection?”

“Yes.”

“Do you recommend rubber gloves and rubber-soled shoes for protecting dimensional energy fields?”

“Yes.”

For additional instructions on saying consolidated Prayers, saying a Safeguard Prayer before a Sun event and composing unique individual Prayers during the balance of time in a Sun event, see Chapter 14.

Tuesday, July 21, 2009

Regardless of a “body Mezuzah” or rubber gloves, there’s a noticeable shift that occurs at the hour of the day when a Prayer “expires” due to the fact that

there have been less than 12 recited. While a “consolidation” request offers extra power, space and time are both full of booby traps due to alien access to time lines. My solutions have been mostly pieced together from “guess-estimates” about solutions—and then trial and error experiments. Because I have been attacked almost non-stop for seven months, there has been a lot of opportunity to experiment.

CALCULATING “SHIELD” STRENGTH

My latest “estimate” deals with calculating when a Prayer that has not been recited at twelve Sun events—expires. Knowing the approximate time that a Prayer expires is a time that an “extra” Prayer can be composed—as a defense against nasty attacks. To clarify if I am correct about how to calculate when a Prayer expires, I asked:

“Are You God? [3 variations].

“Yes.”

“Does the first Prayer that has 1/12th of the power of the total—expire after one hour?”

“Yes.”

“Does the second Prayer that has 2/12ths of the power of the total—expire after two hours?”

“Yes.”

“Can this system be tampered with?”

“Yes.”

“Do Prayers recited between

God's energy can protect similar to this image of the USS Voyager's deflector shield that is repelling a burst from an enemy weapon. Source: Star Trek Wiki.

Sun Rise and Sun Down last for twelve minutes?"

"Yes."

"Would it be a good idea to calculate when a Prayer expires—and reinforce a 'God shield' with some extra Prayers of protection?"

"Yes."

Due to the extreme amount of tampering, a 'twelve minute' Prayer can include a request for 'consolidating' the strength of a 'twelve hour' Prayer.

"Should each of these Prayers be unique so they're not tracked?"

"Yes."

"Can a 'consolidate' request be added to extend twelve minutes to twelve hours?"

"Yes."

I found composing Prayers on-the-fly

to be annoying at first and I resented the need to invent new Prayers but it became easier and easier. A thesaurus is almost a necessity. If you need to write Prayers out ahead of time, write them as light as possible in pencil and skip words that you know you will remember. To verify that I am correct about this strategy, I asked:

"Do the controllers see me compose Prayers?"

"Yes."

"Do light pencil, and messy handwriting help?"

"Yes."

I've provided samples of Prayers in Chapter 14.

SCANNING AND TIME LINES

Once a person starts to pray using Prayers that contain God words, alien scanners can pick up a voice imprint, thoughts, and clothing as well as habitual patterns [e.g. route to work, favorite foods, locking car doors, etc.]. The list of traceable habitual patterns is large and it's databased. Recently, I have realized—that the alien scanner is the reason why I was given the information about "alternates" for Chapter 2. There's never enough alternating that can be done to avoid alien scanners picking up a pattern—at least not with my limited possessions that are the result of discarding all blue and all red.

Time lines track events before they happen giving aliens a very unfair advantage over humans. Although a time line device is beyond the limit of my imagination, I know that the controllers have an ability to pre-determine my location. Although there is more than one time line [they are "probable" and not exact], the ability to read the future gives aliens a very unfair advantage over humans. To check that I am correct about this, I asked:

"Are You God? [3 variations]."

"Yes."

"Are voice prints, thoughts and patterns of behavior all trackable?"

"Yes."

"Are there other characteristics that are trackable?"

"Yes."

"Colors?"

"Yes."

"Have my neutral colors been trackable?"

"Yes."

"Have my neutral colors been a necessity due to energy sensitivity?"

"Yes."

"Is this a nasty trap?"

"Yes."

"Should a Prayer be composed to block [or some similar verb] all trackable characteristics from alien scanners?"

"Yes."

"Am I just beginning to learn how to avoid alien interference?"

Alien technology can scan voice prints, thoughts, habits, and colors in clothing. I suspect that they can also produce sophisticated IF, THEN loops to program energy attacks based on these trackable characteristics—the most important of which are words in Prayers.

“Yes.”

“Is there a lot more to learn?”

“Yes.”

“Will I learn what I need to know and be able to relay it to others?”

“Yes.”

ALIEN WALK-INS

Once you are picked up by an alien scanner [most likely Sirian—due to their advanced technology], you begin to encounter what I believe are aliens who have walked-in to human bodies much like Drunvalo Melchizedek admits to walking into the body of Bernard Perona on April 10, 1972. In *Ancient Secret of the Flower of Life* [2000],

Volume 2, in a section called “The History of the Sirian Experiment,” in Chapter 17, he writes:

On April 10, 1972, my spirit walked into the body of Bernard Perona, the person who was in the body before I entered.

Note: Drunvalo’s latest book, published in 2008, is titled, *Serpent of Light*—indicating that he is most likely Reptilian.

What follows are people at every one of your destinations—wearing blue clothes or driving blue vehicles [the color frequency used to zap]. Some wear clothes or drive vehicles that are red [the color frequency used to magnetically ‘collect’ blue energy]. To learn more about walk-ins and what seem to be ambushes, I asked:

“Are You God? [3 variations].”

“Yes.”

“Is Drunvalo a Reptilian?”

“Yes.”

Do most alien races have the ability to take possession of human body’s?

“Yes.”

“Did Drunvalo choose Bernard Perona and just take over?”

“Yes.”

“Is Bernard Perona still present?”

“Yes.”

“Does Drunvalo occupy his body 100% of the time?”

“Yes.”

“Are there body takeovers that occupy a body part time?”

“Yes.”

WALK-IN BOOKS AND TELEVISION

There are about a dozen New Age books that say walk-ins are ‘high-minded’ souls who “desperately” want to incarnate into an adult body at this moment in world history. Walk-ins were even featured on the June 4, 1999 segment of Robert Stack’s *Unsolved Mysteries*.

Ruth Montgomery, a journalist-turned-New Age-writer, who channeled book content from a group of guides, may have been the first to write books about walk-ins. Her guides gave the impression that they’re disincarnate beings. To find out if Ruth’s guides were aliens, I asked:

“Are You God? [3 variations].”

“Yes.”

“Were Ruth Montgomery’s guides aliens who posed as disincarnates?”

“Yes.”

“Were they the Arcturians that she wrote about in her book, *Aliens Among Us*?”

“Yes.”

“Are Arcturians Anunnaki Reptilians?”

“Yes.”

Ruth Montgomery’s second book about walk-ins, *Herald of A New Age* [1987], says over 10,000 walk-ins would be arriving in the ‘next decade’ to prepare us

Ruth Montgomery's *Strangers Among Us* [1984] is a book about walk-ins that appears on the Nibiruan Councils' recommended reading list. Ruth wrote two books about walk-ins and a book about aliens. She received the content of her books through automatic writing. In her book, "Herald Of A New Age," published in 1987, Ruth's guides told her that walk-ins would be coming in increasing numbers during the next decade to "prepare us" for the coming New World Order.

Ruth's book, *Aliens Among Us*, is mostly about Arcturians who Dr. Norma Milanovich described in her book, *We the Arcturians* —channeled to her by Thoth.

for the "coming of the New World Order." In 1987, Americans had not yet experienced any hints of what a "New Order" meant. George Bush senior did not use the expression "New World Order" until 1990 in a speech that he gave to Congress. Referring to the war in the Persian Gulf, he said:

Out of these troubled times, our fifth objective—a new world order—can emerge: a new era—freer from the threat of terror, stronger in the pursuit of justice, and more secure in the quest for peace.

I wondered if New Age writers working in 3D had been duped—or, even controlled by walk-ins. To learn more, I asked:

"Are You God? [3 variations]."

"Yes."

"Was Ruth Montgomery manipulated?"

"Yes."

"Did aliens identify her as someone who could produce more than a dozen New Age books with content that they controlled through channeling?"

"Yes."

"Should readers of this e-book learn to use a pendulum to check [and re-check] the accuracy of the content?"

"Yes."

WHO ARE THE ARCTURIANS?

Ruth Montgomery's *Aliens Among Us*, published in 1985, contains chapters about Sirian and Arcturian walk-ins who were introduced by her guides. The walk-ins who Ruth interviewed for her book refer to the "Ashtar Command" that shows up on Google as the "airborne division of the Great White Brotherhood of Light led by "Jesus/Lord Sananda."

Several of the Ashtar Command Web sites describe Jesus/Lord Sananda as the "Jesus, the Christ" and refer to a second coming. Norma Milanovich's book, *We the Arcturians*, provides hints that the second coming will occur at

the Ascension. Norma, who received help from Thoth when she wrote her book, wrote details about the second coming from the point-of-view of an Arcturian named Juluionno. In a section about the 2nd coming, Norma's readers learn that Sananda, Jesus Christ, will "lead his lambs through a portal" that will not be open again for another 26,000 years. To find out more information about Sananda and the portal, I asked:

"Are You God? [3 variations]."

"Yes."

"Is Sananda Jesus Christ who leads the Reptilian Ashtar Command the same being as the Christian Jesus?"

"No."

"Are the Sirians and Anunnaki Reptilians planning to stage a second coming at the Ascension?"

"Yes."

"Is the portal where Sananda is planning to "lead his lambs" a fake portal and a fake Ascension?"

"Yes."

"Will those who follow Sananda through the fake portal survive?"

"No."

NEWEST WALK-INS: "OTHERKIN"

Internet youth culture has evolved a new form of walk-in called "Otherkin" that sprung up on UseNet in the 1980s and has evolved to include Web

portals, Wikis, Meetups and dating sites for people who believe that they have a part [mental or spiritual] of themselves that is not human.

Otherkin identify with vampires, weres, demons, angels, fae [also known as fairies], elves and dragons. Meetup.com lists 34 Otherkin groups around the world [approximately 2,000 people as of this writing], most are vampire groups—and most are located in the United States. The cities with the largest groups of people who believe they are *real vampires* include Los Angeles, Las Vegas, Melbourne, Houston and Toronto. To learn about these groups, I asked:

The Otherkin Dating site is owned by an Elven, the most common type of Otherkin. In the world of Otherkin, elvins are defined as elves, dwarves, pixies, and halflings.

“Are You God? [3 variations].

“Yes.”

“Are humans who identify with vampires, weres, demons, angels, fae, elves and dragons hosting *aliens* who have walked-in?”

“Yes.”

“Are they from Earth’s lower astral realms?”

“Yes.”

“Are some of these beings the result of experiments?”

“Yes.”

“Are some of these beings the result of curses?”

“Yes.”

“Are their circumstances all different?”

“Yes.”

“Were some once guardians?”

“Yes.”

“Have they been mistreated?”

“Yes.”

“Is the human still present in a shared body?”

“Yes.”

“Are the walk-ins *halves* the result of the ‘Sirian Experiment’?”

“Yes.”

“Did the beams of energy fracture the auras of all life on the planet?”

“Yes.”

“Was this an accident?”

“No.”

“Was the migration of lower astral beings and the body possession that

followed considered to be a tool to help identify Azurites?”

“Yes.”

“Is this because lower astral beings and aliens cannot take possession of an Azurite?”

“Yes.”

“Do they intend to access human DNA in these shared bodies and then leave them to fend for themselves for another 26,000 years?”

“Yes.”

“Do the beings who migrated to 3D Earth from the lower astral planes have any idea what is planned?”

“No.”

“Would it be smart for these beings to help prevent the alien hijacking that’s ahead?”

“Yes.”

“Is aligning with You the best way to do this?”

“Yes.”

BEINGS IN EARTH’S LOWER ASTRAL

Earth’s third density that we occupy is the densest of the energy levels and it is also closet to the lower astral planes. Those who caution against using Ouija Boards do so because the lowest astral planes have close proximity to 3D. These lower realms are occupied by mostly negative invisibles. Examples include disincarnate humans who led evil lives on Earth and monsters that magicians and supernatural beings

created—often to harm others. In magic, the word ‘conjure’ means to summon into existence. Many of the beings in the lower astral planes are the result of negligent practices—or, a curse that trapped a being in a form that was then sent to the lower astral realms.

Because the lower astral planes are uncomfortable, the beings who occupy these layers often jump at any opportunity to take control of a human or animal body in the 3D world. To learn about these groups, I asked:

“Are You God? [3 variations].

“Yes.”

“Are the lower astral planes inhabited by beings that have been either trapped or sent there since Earth was created?

“Yes.”

“Are most of their circumstances due to curses and experiments?”

“Yes.”

Due to the images of dragons and snakes that appear in cultures across the globe, particularly in Mark Amaru Pinkham’s book, *The Return of the Serpents of Wisdom*, I wondered if there are real dragons in the lower astral.

“Are there dragons in the lower astral realms that are real?”

“Yes.”

“Are these dragons related to

Reptilian extraterrestrials?”

“Yes.”

“Are they trapped in the lower astral due to curses?”

“Yes.”

“Are the other non-human beings in the lower astral also extraterrestrial?”

“Yes.”

“Are these astral-dwellers blocked from asking for help?”

“No.”

“Can they make requests from the astral or from a 3D human body?”

“Yes.”

“Do they understand this?”

“No.”

Earth’s invisible lower astral realms are occupied by disincarnates who once led evil lives on Earth as well as beings who were trapped or transformed by curses and experiments. If given an opportunity, these beings jump at a chance to occupy a human or animal body in Earth’s third dimension.

ALEX COLLIER ON WALK-INS

In addition to the alien and astral migration that’s taken place for the last three-to-four decades, there has been a very recent wave of invisible aliens taking body possession of humans. As I began to ask questions about this topic, I discovered that the numbers are much larger than what have been described by contactees.

Michael Salla’s article, “Typology of Extraterrestrial Races According to Alex Collier and the Andromedans” [2004], says 144,000 walk-ins are present on the planet but the article is five years old:

Seventy-two thousand walk-ins are on the planet right now and are a part of the Andromedan Council.

Seventy-two thousand more are coming in the next three years to balance the negativity.

To find out if there are 144,000 walk-ins on the planet, I asked:

“Are You God? [3 variations].

“Yes.”

“Are there more than 144,000 walk-ins on the planet?”

“Yes.”

“Are there more than one million?”

“Yes.”

Later, I found out that there are more than two billion walk-ins on the planet!

VEILED REFERENCES TO AZURITES

More than one [alien influenced] author refers to a “negative” group that will ‘fight’ at the time of the Ascension. In Norma Milanovich’s *We the Arcturians*, the Arcturian named Juluionno says these “souls will manifest anger.” After reading that P.M.H. Atwater called “anger” an Indigo [also known as Azurites] ‘signature,’ I wondered if the ‘angry’ souls who will be ‘fighting’ at the Ascension are Azurites. I asked:

“Are You God? [3 variations].

“Yes.”

“Are the ‘angry fighters’ that the Arcturian Juluionno refers to in Norma’s book Azurites?”

“Yes.”

“Are the [alien influenced] authors trying to convince readers that Azurites are wrong and they are right?”

“Yes.”

ALIEN GREAT WHITE BROTHERHOOD

The Ashtar Command Web [<http://ashtar.galactic2.net>] is an example of a “Great White Brotherhood” portal that contains information about the Ascension as well as Sananda Jesus Christ who will be posing as Jesus Christ

making a second coming. There is a channeled message on the site that claim that the Great White Brotherhood is not “Reptilian.” The same message says that human originated in the Pleiades. In the channeled message titled, “Space Friends Are A Choice As The Earth Changes and The Importance Of Discernment,” New Agers are told:

As you may recall [from previous channelings], the origination of humankind upon this planet came from the Pleiades.

If e-book readers recall, Chapter 9 explains that Mark Amaru Pinkham’s book, *The Return of the Serpents of Wisdom*, says that The Great White Brotherhood is Reptilian.

Pleiadian “Serpents” are not hard to track. They’re described in Mark

Ashtar Command logo from an Ashtar Command Web sites containing a tag lines that reads: “The Airborne Division of The Great White Brotherhood.”

Amaru Pinkham’s book as “androgenous serpents who came to Atlantis from the Pleiades” who also “mated with the human population.” ENKI is also described as ‘androgenous’ in Mark’s book—just as he was by the Dogon. In Chapter 11, we discovered that “androgeny” means ‘self-fertilizing,’ and incapable of reproduction with gendered humans. To check this, I asked:

“Are You God? [3 variations].

“Yes.”

“Did the Pleaidians travel to Atlantis?”

“Yes.”

“Were they androgenous?”

“Yes.”

“Does this mean ‘incapable’ of mating with humans?”

“Yes.”

“Can any of the human lineage be traced to the Pleaides?”

“No.”

Several other books from New Age authors who have channeled the Pleaidians contain references to “Reptilians.” Similar to the content on the Ashtar Command Web site, they also refer to human origins in the Pleaides. In her book, *Earth: Pleiadian Keys to the Living Library*, Barbara Marciniak, who has been channeling the Pleiadeans for over twenty years, refers to “Man’s Reptilian Heritage.”
